FIR WOOD BEDSIDE LAMP - ABC 001

€ 105,00

This bedside lamp is a unique and unrepeatable piece, entirely hand turned from a single block of fir wood. Characterised by a modern and refined line, the lamp's base features warm colours that blend perfectly into contemporary and rustic environments.

The craftsmanship of the product is reflected in the small imperfections that may appear on the surface, evidence of the manual workmanship and the nature of the wood itself, which makes each lamp a unique work.

MATERIALS AND PROVENANCE

The wood used comes mainly from the Upper Volturno Valley in Molise, renowned for its beech, manna ash and oak forests. This careful selection of local woods ensures the quality and sustainability of the product, enhancing the link with the Italian territory.

Colours and Finish

The colouring of the lamp is carried out using watercolour and acrylic techniques to bring out the natural grain of the wood, giving it an artistic and natural look. The finish is completed with carnauba wax, a natural wax that gives the surface a glossy and resistant effect. Carnauba wax complies with CE standards, guaranteeing ecological and safe protection.
