DESCRIZIONE PRODOTTO

The **Fortuna** wall light is a lamp with a modern, essential design, featuring a circular shape and an elegant indirect lighting effect.

The central metal disc is surrounded by a slim luminous edge that diffuses light onto the wall, creating a delicate glow that enhances the space without being intrusive.

Available in **three finishes: white, black, and brushed gold**, Fortuna fits easily into modern and contemporary interiors. The white version is discreet and minimal, the black creates a pleasant contrast with light-colored walls, while the brushed gold adds a warmer, more refined touch.

With a **diameter of 38 cm and a depth of just 5 cm**, this wall light is particularly well suited to living rooms, bedrooms, hallways, and corridors, even where space is limited.

The **integrated 28W LED** source produces 2560 lumens with a color temperature of 3000K, for a warm, inviting white light. It is also dimmable via phase-cut or Push systems, allowing you to adjust the light intensity to suit your needs.

The Fortuna collection is also available in a smaller 20W version.
