DESCRIZIONE PRODOTTO

The **Fortuna** wall lamp is a modern, essential-design fixture, featuring a circular shape and a pleasant diffused light effect.

The structure consists of a central metal disc, surrounded by a slim opal white methacrylate diffuser that creates a delicate halo of light on the wall.

Available in **three finishes: white, black and brushed gold**, Fortuna easily adapts to different decor styles. The white version blends discreetly into light-coloured walls, the black version creates an elegant contrast, while brushed gold adds a warm, refined touch.

Thanks to its **30 cm diameter and depth of just 5 cm**, this wall lamp is particularly suited to entryways, hallways, bedrooms and living rooms. It can be installed individually or paired with other lamps to create a luminous composition on the wall.

The **integrated 20W LED** source produces 1640 lumens with a colour temperature of 3000K, for a warm, inviting white light.

Fortuna is also **dimmable via phase-cut or Push system**, using external devices not included, to adjust the light intensity according to your needs.

The collection is also available in a **larger version with a 38 cm diameter and 28W**.
