DESCRIZIONE PRODOTTO

More than a simple wall light, **Dea 334.04.MA by Il Fanale** is a decorative element designed to characterize the wall even when the light is off.

The lamp consists of **two concentric iron circles**. The Marea finish surface evokes Mediterranean colors through irregular shades, shifting from earthy tones to the green and blue hues of the sea.

When switched on, the light from the back creates a luminous halo around the disk, highlighting the depth of the composition. The result completely transforms the perception of the wall without relying on elaborate shapes.

Handcrafted workmanship makes each piece unique, with natural variations in the distribution of shades and colors.

With its 70 cm diameter, the Dea wall lamp is particularly suitable for living rooms, grand entrances, bedrooms, restaurants, hotels, and contract environments.
