DESCRIZIONE PRODOTTO

The **Dea 334.01.MA pendant by Il Fanale** is born from the simplicity of the circle and the exploration of Mediterranean surfaces and colors.

The iron disc with **Marea** finish features shades reminiscent of the sea, sky, and warm earth tones. The distinctive artisan craftsmanship makes each lamp slightly different from the next, transforming it into a true decorative element.

The essential form is completed by **dual-emission** light, directed both upward and downward. The emission can also be controlled separately, allowing you to choose between bidirectional lighting or single-direction emission.

With a diameter of 30 cm, Dea can be used individually or in multi-element compositions, particularly striking above tables, counters, reception desks, and in contract settings.
