DESCRIZIONE PRODOTTO

The **Lava 9-light pendant** stands out for its original design, inspired by the fluid shapes of solidified lava. The nine cognac-colored glass diffusers, characterized by irregular and soft surfaces, create pleasant light reflections that make the environment warm and welcoming.

The linear sand-colored metal structure pairs elegantly with the amber shades of the glass, creating a modern, light composition with a strong decorative character.

With a length of 116 cm, **Lava is particularly suitable for lighting a rectangular dining table, a kitchen peninsula, or a living room.** The arrangement of the nine light points along the structure allows for light distribution over an elongated surface, while the unique shapes of the diffusers add movement and personality.

The pendant uses nine G9 LED bulbs, not included, which allow you to choose the most suitable light tone for the environment. To enhance the shades of the cognac glass, we recommend a warm light

between 2700K and 3000K.

Lava is part of the homonymous TK Lighting collection, characterized by glass diffusers with organic shapes and a design that combines elegance and modernity.

Technical Specifications

- **Type:** Pendant lamp
- **Dimensions:** W 116 × D 33 × H max 141 cm
- **Frame material:** Metal
- **Frame color:** Sand
- **Diffuser material:** Glass
- **Diffuser color:** Cognac
- **Number of light points:** 9
- **Bulb socket:** G9
- **Maximum wattage:** 8W LED per bulb
- **Bulbs included:** No
- **Dimmable:** Yes, with dimmable LED bulbs and compatible dimmer
- **Power supply:** 220–230V, 50/60Hz
- **Protection rating:** IP20
- **Insulation class:** I
- **Canopy dimensions:** 33.5 × 6 × 2 cm
