DESCRIZIONE PRODOTTO

The ZEN 3-light pendant highlights the interplay of shapes and colors that defines the entire collection, creating a composition that's richer yet visually balanced.

The three white glass diffusers can be adjusted to different heights, allowing for a more linear or more dynamic arrangement depending on the space and desired effect. The sand-colored frame delicately ties the different tones together, making the lamp easy to incorporate into contemporary settings featuring wood, beige, cream, and natural colors.

The 3-light composition is especially well suited above a round or square table, in the dining area or in an open-plan living room. The white glass diffuses a soft light, while the colored elements add character even when the lamp is off.
